

PIPE BURSTING APPROVAL FORM

CONTRACTOR (Please Print)

PROPERTY ADDRESS

REQUEST:

To repair the existing building sewer using the pipe bursting method and inserting high-density polyethylene (HDPE) pipe.

CONDITIONS:

1. Building sewers that have sags or are flatter than the minimum slope specified by the District are not allowed for pipe bursting. The District Engineer, or his duly authorized representative, shall determine the suitability of the existing building sewer to be rehabilitated for pipe bursting, based on the pre-rehabilitation television inspection video required to be submitted with this form. Upon submission, the video and its media will become the property of the District. It is the contractor's responsibility to keep a copy of this video for their own record. The decision of the District Engineer or his authorized representative is final
2. The Contractor shall pay all applicable fees and deposit, secure a District permit, and, where applicable, secure an encroachment permit from the respective City.
3. The Contractor shall furnish, install, test, and complete HDPE pipe and fittings in place, in accordance with USD's Standard Specification Section 7-10: Rehabilitation of Existing Building Sewers Using the Pipe Bursting Method.
4. **The Contractor shall submit to USD a post rehabilitation television inspection for final acceptance of the work.** Upon submission, the video and its media will become the property of the District. It is the contractor's responsibility to keep a copy of this video for their own record. The Property Owner and Contractor fully understand that the final approval and acceptance of the pipe bursting work is contingent upon the new pipe being free of sags and meeting or exceeding minimum USD slope requirements and specifications. Defective work shall be corrected immediately to the satisfaction of USD.
5. The Contractor shall have explained to the Owner the pipe bursting method and procedure, its limitations, and the possible risks involved. The pre-rehabilitation television inspection video shall be shown in its entirety to the Owner.
6. **The undersigned Owner has viewed the pre-rehabilitation television inspection video in its entirety and has authorized the Contractor to perform the pipe bursting method pending USD's approval.** The Owner also acknowledges that he/she fully understands the pipe bursting procedure, its limitations, and the possible risks involved, as explained by the Contractor.
7. The undersigned Contractor and Owner hereby accept and assume all liability which may arise from this Pipe Bursting Approval, including, but not limited to, personal injury and bodily injury arising from the construction, ownership, and maintenance of the sewer facilities being constructed.
